

Session 3.8 – Flap workshop (surgeons) & Rehabilitation for soft tissue cover (therapists)

Objectives:

1. Perform local and regional flaps for coverage of hand and upper extremity wounds without microsurgery.
2. Understanding the intrinsic and extrinsic factors influencing the choice of soft tissue coverage.
3. Understanding rehabilitation protocols in patients who have underwent surgery for soft tissue cover.

Primary Resources:

1. Pulvertaft Webinar: Flaps in finger reconstruction by Dott Roberto Adani :
